mishrasatyam420360@gmail.com ◇ [linkedin](#) ◇ [portfolio](#)

OBJECTIVE

Motivated and technically skilled Java Full Stack Developer with a strong foundation in Java, Spring Boot, React, and RESTful APIs, complemented by hands-on experience in Cloud, AI, and IoT concepts. Proficient in Python, Firebase, and Google Cloud, with knowledge of Machine Learning, Big Data, and automation. Eager to leverage diverse technical expertise to build scalable, user-centric applications and contribute to innovative projects that integrate modern web technologies with intelligent cloud solutions.

EDUCATION

Bachelor of Technology in Computer Science with IoT , RGPV University (CGPA - 7.97)	2021 - 2025
Senior Secondary Education (Class XII, 86.60%) , State Board	2020 - 2021

CERTIFICATIONS

Cloud Computing	(NPTEL)
Introduction to Cybersecurity	(Cisco)
CCNAv7: Introduction to Networks	(Cisco)
Communication Skills	(TCS iON)
Python Essentials	(Cisco)
Data Analytics	(Geeks of Gurukul)

SKILLS

Cloud & Databases	Google Cloud (Firebase, Firestore, Cloud Functions), AWS (basic), MySQL, NoSQL, Realtime Database
Programming Languages	Python, Java, C/C++, Dart
AI & Data Analytics	Pandas, NumPy, Scikit-learn, TensorFlow (basic), Data Visualization (Matplotlib, Seaborn)
Automation Tools	UiPath, Power Automate Desktop, OpenRPA
IoT & Embedded Systems	ESP32, Arduino, Sensors, Actuators, REST APIs
Mobile App Development	Flutter, Firebase Auth, Maps & Location APIs
Version Control & Tools	Git, GitHub, Firebase Console, Arduino IDE

EXPERIENCE

Java Full Stack Developer	September 2025 - Present
HCL Technologies	<i>Greater Noida, UP</i>

- Gaining hands-on experience in developing full-stack web applications using **Java, Spring Boot, JavaScript, MySQL and pgAdmin**.
- Assisted in designing and building RESTful APIs and integrating them with responsive front-end interfaces.
- Collaborated with senior developers to implement CRUD operations, authentication, and data handling logic.
- Worked on debugging, testing, and version control using **Git and GitHub** to ensure smooth development workflow.
- Contributed to code documentation and technical discussions to enhance system design and maintainability.

RPA and Flutter Developer Intern	March 2025 - September 2025
IBOTIX Pvt Ltd	<i>Greater Noida, UP</i>

- Designed and developed cross-platform mobile applications using Flutter.

- Automated repetitive business processes using UiPath and Power Automate Desktop, improving efficiency and accuracy.
- Designed and implemented automated workflows using RPA tools to streamline business processes.

PROJECTS

EcoSentinel: Greenhouse Monitoring System (IoT — AI — Cloud — Data Analytics)

Built an IoT-based greenhouse system using LM35 and soil moisture sensors integrated with Firebase Cloud for continuous environmental monitoring. Implemented data-driven automation using Python analytics to optimize climate control, improving crop yield by 20%.

Smart Parking Management System (IoT — Cloud — App Development)

Developed a smart parking system using ESP32, Firebase Realtime Database, and Flutter app for real-time slot updates. Applied cloud data pipelines for seamless data synchronization, reducing parking search time by 30%.

Home Automation System (IoT — Cloud — Automation)

Created a home automation system using ESP32 and Firebase Cloud, allowing remote appliance control through a Flutter-based mobile app. Integrated AI-based rule scheduling for efficient power and irrigation management.

Word/PDF Chatbot (AI — NLP — Python)

Developed a document-based AI chatbot using Python and Natural Language Processing (NLP) to extract and summarize key insights from uploaded documents, enabling intelligent user interactions.

EXTRA-CURRICULAR ACTIVITIES

- Winner, SISec Innovation Hackathon (SIH) – Led a team developing a cloud-integrated IoT system for sustainable resource management.
- Delivered technical presentations on cloud automation and IoT systems, demonstrating strong communication and client-handling skills.
